

GOVERNOR ARNOLD SCHWARZENEGGER

May 1, 2005

*California Watershed Network*

I am delighted to extend my greetings on the occasion of Watershed Awareness Month.

California is home to many of America's most pristine rivers, streams and lakes. The maintenance and improvement of these watersheds is essential to protect public health, fisheries, wildlife, agriculture, economic development and recreational activities in the Golden State.

With a steadfast commitment to the environment, Californians gladly join our fellow Americans across the country in recognizing Watershed Awareness Month and helping sustain our natural resources for future generations.

Sincerely,
